RUSSIANS QUITTING MUKDEN

Kouropatkin May Not Reach Tie Pass, as Japanese are Strongly Attacking His Shattered Army North of Manchu Capital.

Oyama Proves Himself One of the Greatest Masters of Offensive Strategy Since Napoleon.

MUKDEN, March 8, 4:30 p.m.—[By Asiatic Cable.] The Russian army is evacuating its positions south of Mukden. RUSSIANS BADLY BEATEN.

TOKIO, Mar. 9.—Advices received here indicate that Gen. Kouropatkin is badly beaten in the bloodiest battle of the present war. JAPANESE IN PURSUIT.

TOKIO, Mar. 9, 8 a.m.—It is officially announced that the Russians began retreating yesterday morning. The Japanese armies are pursuing them.

MUKDEN, Mar. 8, 4:30 p.m.—The Japanese last night attacked the Russian positions north of Mukden and forced the Russians to fall back a little.

The Japanese are concentrating on the west front. This may be the last dispatch out of Mukden, as the telegraph line is in danger of being destroyed.

MUKDEN, Tuesday, Mar. 7, 11 p.m.—The chief objects of the northwest of this city, causing the walls of the Imperial Tombs to tremble. An engagement is in progress at the Imperial Tombs.

JAPS EXTENDING FORCES. MUKDEN, Tuesday, Mar. 7, 11 p.m.—The chief objects of the bloody, titanic combat west of Mukden were the villages of Ushuntun, seven miles west of Mukden station, and Tatchekia, where the results practically were a draw, but a further turning movement has developed. The Japanese are extending their forces still toward Tie Pass.

SUPPLIES GIVEN TO FLAMES. MUKDEN, Mar. 8, 5 a.m.—The Russian army is leaving positions south and southwest of Mukden. The sky is lighted with the brilliant glare of burning warehouses, where tons of commissary supplies have been given to the flames. The retirement is being effected in perfect order, the Russians beating off attacks of pursuing Japanese.

The withdrawal was necessitated by a heavy concentration of Japanese west and northwest of Mukden, whither they have transferred a large share of the forces from the southern front to reinforce the original striking force of Gen. Nogi.

The Russians still hold their position at Madyapu, where a strong attack is expected at any moment.

A division of Japanese troops has appeared north of Mukden, on the heights west of Hushatai station.

Except for fights at Ushuntun and Tatchekia, Tuesday was quiet, compared with the fighting on the previous days. The Japanese evidently were completing their transfer of troops.

The Japanese arrangement for furnishing ammunition along the enormous front is acknowledged by Russian officers admirable.

EVACUATE WHOLE LINE. GEN. KUROKI'S HEADQUARTERS IN THE FIELD, via Fusan, March 8 morning.—The Russians last night, under cover of the darkness, evacuated the whole line along the Shakhe River and are now in full retreat northward. The Japanese infantry is pressing them closely.

Before retreating, the Russians set fire to great heaps of supplies, which burned throughout the night.

The Japanese are pushing the Russians hard on the east. While at some parts of the long battle line the Russians were able to check the advance of the Japanese, their repeated and fierce counter-attacks nowhere succeeded in forcing the Japanese from any of the ground gained.

DISLODGE SUPERIOR FORCE. TOKIO, Mar. 8, 4 p.m.—The following dispatch has just been received from the headquarters of the Japanese armies in Manchuria:

"Our force which has been engaging a superior force of the enemy in the neighborhood of Machuntan (southeast of Mukden) dislodged the enemy from his position at 8 o'clock this morning, and is now pursuing him northward."

JAPAN'S VICTORY GREAT. WASHINGTON, Mar. 8.—The State Department is officially informed from Tokio that the Japanese have achieved a great victory before Mukden, and that the Russian army is in full retreat.

JAPAN'S VICTORY GREAT. WASHINGTON, Mar. 8.—The State Department is officially informed from Tokio that the Japanese have achieved a great victory before Mukden, and that the Russian army is in full retreat.

MUKDEN, March 9, 11 a.m.—Today the situation is more tense. A terrific cannonading is in progress, and the streets of Mukden rumble as with 10,000 drums.

Mukden is still in the hands of the Russians, but withdrawal from the line of the Shakhe River is in full progress.

The Japanese are making a strong attack north of Mukden, where they occupy a right-angled position, one side parallel with the railroad, and three and one-half miles distant, and the rear flank northward, three miles north of the Imperial Tombs.

TIMELY REINFORCEMENTS. LONDON, March 9.—The Times's St. Petersburg correspondent says that Gen. Kouropatkin received considerable reinforcements a few days ago, and that it is hoped these fresh troops will stand up to a crushing defeat and enable his retreating army to remove itself and guns.

The casualties are numerous on both sides.

FIRES CANNONADING. ST. PETERSBURG, March 9, 12:45 a.m.—The afternoon edition of the Bourse Gazette yesterday published a dispatch dated Mukden, March 7, 3:45 p.m., which says:

"There was fierce cannonading today (Tuesday) west of Mukden and heavy rifle firing. We succeeded in repulsing today's attacks to the westward and captured several villages to the northwest."

"It is evident that up to today the Japanese have made only demonstrations in this region."

ROJESTVENSKY RETURNING? PARIS, March 8.—A dispatch to the Temps from Tananarivo, capital of the island of Madagascar, says the entire Russian fleet has left those waters on its return to Jibuti, French Somaliland.

## MRS. MILBURN PEERED AHEAD.

**Murdered Widow Consulted  
Fortune Teller.**

**Was Told Her Trip "Would  
be Postponed."**

**Mystery of Strangling as  
Baffling as Ever.**

The fact that a few days before her death Mrs. Nancy Jane Milburn consulted a fortune teller and was informed that her prospective trip (to Watsonville) would be delayed, was yesterday's "important" development in the Milburn murder mystery. In other words, nothing new came to light as the result of another day of investigating; nothing "worth while," that is.

"No trace of a clue," said the Sheriff's office last night.

"Not one new point," said Marshal Harbison of Santa Monica, shortly before midnight.

"It grows more baffling as the hours pass," was the good-night statement of the relatives. "We are as completely in the dark as we have been since the results of the autopsy, Sunday night, disproved the theory of suicide and showed that murder had been done."

Frank H. Hamilton, equal partner with the murdered widow in the ownership of the Los Angeles Land Improvement Company, recalled yesterday.

thanks to the Police Commission and Chief Hammet for their stand for better enforcement of law, and they thanked City Assessor Evan Lewis for his expressed determination to employ no man as deputy assessor who either smokes or drinks.

A telegram was sent to Gov. Thorpe of Missouri, thanking him for the stand he has taken against the saloon-license system. The city press and the Ministerial Association also came in for thanks for aid and comfort given the W.C.T.U. during the past year.

The next meeting of the federation will be at Boyle Heights, on the second Wednesday in April.

**BEER MONEY MAKES TROUBLE  
FOR THREE PEOPLE.**

Two Men and a Woman Under Suspicion of Attempting to Pass \$200 Twenty-dollar Bills—Federal Officer Subjects Them to Arrest, but Fails to Find the "Queer."

Oscar F. Schnell and wife of Minneapolis and W. A. Poehler, who is connected with the Pacific Coast Elevator Company and who has relatives in Los Angeles, were taken to the police detectives office shortly after midnight and there subjected to a search, on suspicion of having counterfeited money in their possession.

The two men and the woman went to the Palace Cafe late last night, and Mr. and Mrs. Schnell ordered beer. One of them tendered a \$20 bill in payment and the waiter, after examining the bill, came to the conclusion that it was counterfeit and so informed the cashier who immediately summoned United States Secret Agent Cronin. That officer reached the place in less than fifteen minutes. In the meantime one of the men seized the bill from the waiter, but he himself was grabbed and held until the arrival of the officer.

The woman stated to the crowd which collected, that she had another bill like the one which was suspected of being a counterfeit, but she refused to produce it. Before the officers arrived she was permitted to go to a toilet room and subsequently one of the men was also permitted to go. If there was ever anything in the case, that spoiled it, for it gave an opportunity to get rid of any bogus money either of them may have had.

When the woman refused to produce a money which she said she had, Cronin took the whole party to the detectives' office and there the woman was searched by Mrs. Gray, the police matron, but nothing incriminating was found on her person. She was almost hysterical. The men had nothing, and inasmuch as nothing could be proven against them, the prisoners were released.

The three were very well dressed and of respectable appearance. Schnell and his wife are staying at the Hollenbeck Hotel. The United States authorities have taken charge of their baggage and will search it in the hope of obtaining incriminating evidence.

An attempt was made earlier in the evening to pass the \$20 counterfeit bills at the Orpheum box office, but the cashier refused to accept them. Whether they were tendered by the same party or not, has not been ascertained.

**BEAT THE CHINKS.**  
Room Specially Constructed for Lottery, Successfully Raided by Police.

The many raids which the police have made upon lottery joints have so discouraged the Chinese that there is now little lottery playing in Los Angeles. Two enterprising Chinks, however, decided to beat the police and render impossible a successful attack. They selected the house at No. 118 North Alameda street and resided in such manner that they supposed the police would never be able to find their supply of tickets.

Last night the place was raided by Patrolmen Boyd and Ingraham and a state of affairs discovered which amazed the officers.

With Chinese ingenuity, the owners of the joint had honeycombed the walls with secret passages and holes. The work was done so well that nobody would suspect that the walls hid enormous quantities of lottery tickets. The officers found a place from which they were able to watch the operations of the two Chinese who conducted the joint. They saw the gamblers open one of the secret chambers and take out a supply of tickets and then they jumped in. They entered with a negro who was a regular customer and caught the Chinese in the act of marking tickets. Then they searched the hiding places and secured the entire supply. The two Chinese were taken to jail.

W.C.T.U. Federation Votes to Aid Dr. Chapman in No Saloon Campaign.

For some time past there has been discussion whether the Women's Christian Temperance Union of this city would be willing to assist in the campaign to close out only the saloons, leaving the hotels and restaurants. However, this matter was settled yesterday by the union in their federation meeting at the First Methodist Church, voting unanimously to stand by Dr. Chapman and to give him all possible aid in the campaign he is now conducting.

This was the annual meeting of the federation, and the year's reports were read. Then followed the election of officers, resulting as follows: President, Mrs. M. T. Griffith; vice-president, Mrs. A. R. Hand; corresponding secretary, Mrs. Marion T. Boyd; recording secretary, Mrs. Emily F. Boller; assistant recording secretary, Mrs. Carrie Blunt; treasurer, Mrs. F. J. Franklin.

In the afternoon Dr. Robert McIntire gave a Bible exposition and paid a tribute to Miss Frances Willard. Mrs. Emma Cash spoke on the coming national convention of the W.C.T.U., which will meet in Los Angeles, October 22 to November 1.

The federation passed resolutions of

## ASHORE NEAR POINT DUME.

**Steamer Cascade Aground in  
the Foggy Night.**

**Engines Flooded; Passengers  
Taken Off Safely.**

**Holes Ripped in Hull; Bow  
on Gravelly Beach.**

The steam schooner Cascade, Capt. Johnson, bound from San Pedro to San Francisco, ran aground nineteen miles north of Port Los Angeles just after midnight yesterday morning. It happened in a dense fog.

The vessel's hull was broken in and through the large holes smashed in the ship the water rushed till the engines were totally flooded. No lives were lost. The Cascade's evil situation was discovered by the steamer Queen yesterday afternoon and the passengers were taken off, and proceeded on the Queen to San Francisco.

Not long after the accident the mate left the ship with a rowboat with four sailors and arrived at Port Los Angeles yesterday afternoon. He reported that when he left the Cascade her stern was afloat, but that in the darkness he could not tell whether the propeller or rudder had been broken. Her bow, he said, rested on a gravelly beach.

Capt. John Hamilton, pilot of the port of San Pedro, received a telegram yesterday afternoon from Edward L. Woods of San Francisco, one of the owners of the Cascade, asking him to employ a tug and proceed to the relief of the steamer and to float her if possible and proceed to San Francisco. The tug Colla was dispatched for that purpose yesterday afternoon.

A NEW VESSEL.  
The Cascade is a new vessel and has been in commission only a few months. She was built at Everett, at the Bendix yards, and is of the same type as the Vanguard and Helen P. Drew which were built about the same time. She is about 120 feet in length and this was her first trip to this port, she having brought a cargo of lumber for the Southern California Lumber Company.

**NIGHT OF PERIL.**

**PASSENGER TELLS HIS STORY.**  
(BY DESPATCH FROM THE TIMES.)  
SANTA BARBARA, March 8.—(Exclusive Dispatch.) The Cascade left San Pedro last night at 9 o'clock, taking the usual course out of that port, and when opposite Port Los Angeles she ran into a very dense fog. The fog was so heavy that the captain was unable to hold his bearings and, while trying to get some idea of where he was sailing, by running close to shore and looking for lights, he went around three miles east of Point Dume.

Fortunately no lives were lost. The passengers and crew remained on the boat, as it was safer than for them to trust their lives in small boats in the fog.

They were taken directly off from the Cascade this afternoon by the steamer Queen. The Queen rescued the following passengers: Mr. and Mrs. J. M. McCall and wife, F. A. Patterson and wife, Mrs. M. Hughes, W. B. Scott, Warren Matthews, Flora McGowan, C. E. Harrison, Albert Myers, R. F. Beam, Peter Kauenmell, M. Smith, William H. Hendt, Fred Johnson, B. Elwell and brother, C. W. Smith, F. L. O'Hara, J. Nolan and James Gibben.

**AWAKENED BY CRASH.**

John J. McCully, a passenger on the unfortunate boat, in relating his experience, said:

"The first I knew of the wreck was when I was awakened by a heavy thud, as though the boat had struck something, but nothing incriminating was found on her person. She was almost hysterical. The men had nothing, and inasmuch as nothing could be proven against them, the prisoners were released."

"The three were very well dressed and of respectable appearance. Schnell and his wife are staying at the Hollenbeck Hotel. The United States authorities have taken charge of their baggage and will search it in the hope of obtaining incriminating evidence."

An attempt was made earlier in the evening to pass the \$20 counterfeit bills at the Orpheum box office, but the cashier refused to accept them. Whether they were tendered by the same party or not, has not been ascertained."

When a woman has been mistress of ceremonies, or chairman of the Ceremonies Committee, for the social side of the greatest world's fair ever seen, and of the greatest social element ever participating in a world's fair; when she has been for years a notable club woman and has held nearly every office in her own club in her own city; when she has held a State chairmanship and

MRS. F. EARNEST, Denver, Colorado.

distinguished her department of work; when she has been the leader of the largest political organization of women in a State where they are accorded the right of suffrage, one scarcely expects to find her busily engaged on a dainty bit of needlework for a little grand-daddy's dress and as entirely absorbed in it, as was Mrs. F. Earnest of Denver, Colo., when sought by a reporter at Hotel Lankershim yesterday afternoon.

Mrs. Earnest was quoted as one of the most tactful and popular women on the board of lady managers of the Louisiana Purchase Exposition. The most exclusive houses of St. Louis were opened for her entertainment, and the most ultra women were glad of her recognition.

During the great gathering of club women in St. Louis last spring all the California delegates were entertained by Mrs. Earnest at a luncheon given at the magnificent new Woman's Club House there, for this delightful Colorado woman is especially partial to California and intends to make Los Angeles her home for a part of each year until such a time as her husband's large property interests in the East will allow a permanent removal of her family to Southern California.

Last winter, during her stay in Los Angeles, Mrs. Earnest immediately identified herself with the club interests of the city and was a representative of the Elbel Club at the recent biennial.

"The interest that the club women here take in the civic affairs," said Mrs. Earnest yesterday, "and the determination with which they set about informing themselves upon conditions is a sure sign that Los Angeles will become one of the great cities of the future. The women seem to be particularly wide-awake here, and as far as my experience in clubs goes, they are working along the best lines undertaken in the United States today."

"I joined the Elbel Club when I was here last year because I received my club training in the Denver Woman's Club, which is arranged in sections and carries on its work in the same manner. It seems to me that a great deal of wisdom is thus dividing and systematizing the work."

"Yes indeed, I believe in clubs for women," Mrs. Earnest replied in answer to the well-known query. "It makes better housekeepers of them; they learn to systematize their work, they do given duties at a given time, and there is leisure for other things. They can go to the club for refreshment, for new ideas, and they can take back into the home the best results derived, the results of the wide and varied reading, and are the brighter and fresher themselves because they have gotten out of their ruts."

"Do I think they carry clubs to an excess? Well, the kind of woman who does carry them to an excess would carry something else to an excess if she didn't clubs, and let me tell you I don't see any rule elevating and uplifting and a much better form of dissipation than many foolish fads."

"What of women's suffrage?" was asked of Mrs. Earnest, and then she smiled. "You know, I was brought up in the South," said she, "and used to think it was terrible for a woman to go to the polls, but I have since lived in Colorado, and have learned to value the right of suffrage as a power which will benefit the whole community."

"I am prouder of being a good mother than anything else," said this modest club woman, "and I have brought up nine children." She added with the proud Cornelia air, which sat well upon her youthful face.

Mrs. Earnest has made many efforts for the benefit of other people's children as well as being an ideal mother for her own. During the time that she was for three years the chairman of the art section of the Colorado Federation of Women's Clubs, she turned her attention to making the school buildings more beautiful, and every little town in Colorado where there was a woman's club worked for the improvement and the artistic adornment of the schools, through the efforts of Mrs. Earnest. She was president of the Art League of the Wyman School of Denver, which is one of the most artistic and beautifully-decorated schools in the country, and whoever visits Denver hears of the work of the women in making the schools attractive for rich and poor alike.

Highland Park Ebel.

This club opened its session Tuesday morning with a lively discussion concerning the building of a clubhouse. A committee was appointed to see about a lot, and next week another committee will begin investigating building possibilities.

Miss Tucker's talk on plucky, water-begotten little Holland, with its cities built upon piles and its meadows dotted with windmills, was a treat.

Occupying a most advantageous site near the water front of Wilmington Harbor, which is the culminating point of San Pedro Bay, or inner harbor. The destiny of Wilmington is assured. The city fronts on the great turning basin planned by the United States government for deep water ships in the inner harbor. It is the Pioneer Shipbuilding Port of the Southern California Coast, and now the most powerful agencies on land and water have combined for its immediate upbuilding and advancement.

Wilmington is situated on the Southern Pacific Railroad; also an electric railroad, a main artery in the gigantic Huntington system has just been completed.

Already the water frontage of San Pedro has been completely absorbed; the wharves are overcrowded; vessels are sometimes obliged to wait days for a chance to unload; and it is a question of a short time only when completely built up water frontage will connect Wilmington and San Pedro in an unbroken line of busy traffic. Great industrial companies, to which the vantage point of combined rail and water facilities are both essential and irresistible, are already casting their eyes toward Wilmington, and the port is certain to become a large manufacturing and commercial center. It is easy to see that Wilmington real estate will never be as cheap in the future as it is now; and the advance in prices will be as rapid as it will be permanent. The opening of the beautiful MAR VISTA tract, with its advantageous location near the best of the water frontage, will present special advantages and exceptional facilities to intending investors, and it is perfectly safe to predict that the latter will be as quick to recognize their opportunities as they were when other Grider and Hamilton subdivisions were on the market.

The MAR VISTA tract is located close to the deep water portion of the bay, between Fourth and Seventh streets. This site was selected more than a year ago, when prices were low, and the tract will be sold out at prices which will double in one year.

The subdivision contains 219 large lots, with wide streets, all graded, cement curbs, beautiful shade trees and water piped on each street. The soil is excellent and from the tract is presented a splendid view of the inner harbor. There are no poor lots in the tract. Each and every one is a perfect gem and shares in the beautiful view. Remember our tickets are limited to 1000 people for Sunday, March 12. Better secure your tickets in advance.

## IN IRELAND.

Woolen Mill to be Started in Connemara With Capital from San Francisco.

(STAFF CORRESPONDENCE OF THE TIMES.)  
DUBLIN, Feb. 18.—Nothing has yet been published about an important scheme now being developed by two San Francisco men for starting a woolen industry in the west of Ireland. The men in question are Robert C. MacKee and Alexander Henderson, and they have \$50,000 with which to carry out their project. Messrs. MacKee and Henderson, who arrived in Ireland about a fortnight ago, have

decided to commence operations in an obscure little village called Leenane in the wilds of Connemara and beneath the shadow of Kylemore Castle, the western seat of the Duke and Duchess of Manchester. The selection of this site is due to the recommendation of the Duke, who met the promoters in New York and dilated on the possibilities of the Irish industrial revival, particularly in that part of Ireland where labor is cheap and natural resources abundant. The scheme outlined is as follows: A mill worked by water power will be erected and American machinery of the latest pattern will be introduced. Large tracts of

land on the rugged mountain side will be acquired and a hardy Scotch breed of sheep will be reared thereon. The wool obtained from these sheep will pass through the various processes of coloring, carding and cleaning at the mill and will finally be turned into cloth which will be known as "Connemara homespun tweed." There is, at present, an increasing demand for Irish manufactured tweed, but the existing factories depend so much upon obsolete processes that the output is infinitesimal, and there does not seem to be sufficient enterprise or money in the country to extend it.

Messrs. MacKee and Henderson believe that they will be able to provide employment for between two and three hundred persons, including men and women. They believe also that there is an extensive clientele in the United States waiting for the introduction of Irish manufactured woolen goods. Both gentlemen are at present visiting the Lancashire centers of the cotton-spinning industry.

By the breaking of a cable in the Shrewsbury coal mine, near Charleston, W. Va., yesterday, four miners were killed and ten others seriously hurt. Four of the injured will die. The men were precipitated to the base of the mountain, 1000 feet, with lightning rapidity.

I am always willing to wait for my fee until a cure is effected.

I WANT EVERY MAN WHO IS afflicted with any special ailment to come and talk with me confidentially about his case. A word of suggestion will often add a patient to get on the right road to a quick and lasting cure. If his case is taken in time, five diseases that have reached an advanced chronic stage yield readily to our medicines and distinctive methods of treatment.

SO-CALLED WEAKNESS  
Organic Weakness, Lost Vigor, Varicocele, Hemorrhoids, Contracted Bladder, Specific Blood Poison, Piles and Stricture are among the diseases that I cure, and my record of sixteen years' success as a specialist in all these ailments presents an array of radical cures far outnumbering the combined cases of any other two specialists in the West where even temporary relief alone was effected.

## THE CITY IN BRIEF.

### NEWS AND BUSINESS.

#### Called to Boston.

A telegram received last night from Boston by the Associated Press, states that Rev. S. C. Chubb, who has been pastor of the East Los Angeles Baptist church, has been called to the pastorate of the Church of the Holy Spirit in that city.

#### Mail Missing.

No eastern mail yesterday in time for the afternoon delivery. Besides no mail, there was no reliable information as to when it really would get through, and the only certainty confronting the postal officials was that all the mail trains were many hours behind time.

#### Looking for Granddaughter.

Mrs. G. Cotton of No. 1004 Reid street, whose husband was seriously injured in a street-car accident on Pico street, is anxiously seeking her granddaughter, Mrs. Ralph J. Woolley, who some time ago was employed at the Rossmore Hotel.

#### Miss Hawkins Located.

Florence Hawkins, the thirteen-year-old girl reported as missing from her home on Temple street, has been found. It appears that she has been at the home of Mrs. F. I. Cooper of No. 2354 Glassell street, since Monday night.

#### A New Order.

Los Angeles is the headquarters of a new fraternal order, which is known as the Home Protective Association of America. Los Angeles Lodge, No. 1, now numbers about seventy-five members, and it will have its installation of officers tonight at Burbank Hall. The officers have been elected: President, Harry A. Kouda; vice-president, Albin Bernard; supreme organizer, Mrs. Constance M. Cady; vice-president, O. J. Wigdal; treasurer.

#### Wants His Boy.

J. M. Walker of this city applied for a writ of habeas corpus yesterday for the person of his son, Clarence Walker, who he alleges is unlawfully detained on the United States ship "Buffalo," now lying in San Diego harbor. Clarence Walker is 18 years of age, and according to his father's statement, has no right, as a minor, to enlist in the navy without the consent of his parents. Judge Wellborn granted the writ, and the youth must appear in the United States Court here next Monday.

#### Glass Works Flourishing.

The glass works of the Southwestern Glass company, at the foot of Avenue 13, East Los Angeles, are now in full blast. Hundreds of bottles and glass jars are turned out daily, and at present the factory is employing a corps of sixty hands. Many of these are highly skilled craftsmen, and some make as high as \$15 per day. It is the intention of the company to have a working year of nine months. It plans to shut down the furnaces on the last of July, so as to give a period for general overhauling and repair.

#### Sits for Large Block.

Architect John Parkinson has purchased a large block of land, bounded by the agency of R. A. Rowan & Co., 400 feet on the north side of Fifth street, 100 feet west of Los Angeles street, with two-story frame dwelling, consideration named, about \$25,000. This gives Parkinson a plot on the northeast corner of Fifth and Los Angeles streets having a frontage of 140 feet on Fifth street, fifty feet on Los Angeles street and a depth of 100 feet at its western extremity. On this site the buyer will build a substantial brick block.

#### Death of Capt. Crowell.

Capt. A. H. Crowell of Hyannis, Mass., who was for years a heavy shipper of oranges and lemons from California, and a man well known to the leading produce men of Los Angeles, died Monday night at the Deaconess Hospital. He had spent six winters in Southern California for his health, and it is said to have been an ideal man in every way. He was formerly a produce and commission merchant in Phoenix, Ariz., where he made a fortune. The remains have been sent East to the widow. Capt. Crowell was taken ill Sunday night.

#### Arizona Chautauque.

The following people from Southern California will participate in the sessions of the Arizona Midwinter Chautauque Assembly to be held in Phoenix from the 11th to the 15th inst.: Rev. Dr. George A. Gates of Pomona, College, Dr. Guy W. Wadsworth and Prof. Mark B. Deal of Occidental; Kate Tupper Galpin, Mrs. Hester T. Griffith, Vice-President W. C. Weld of the International Business College, and the quartet of the University of Southern California, Mrs. Estelle Phelps of Pomona and Elmer A. Todd of Los Angeles.

#### For Benefit of Animals.

A meeting will be held in the interest of the Society for the Prevention of Cruelty to Animals and Audubon on Thursday evening, March 14. The speakers will be Rev. B. Fay Mills and Rabbi R. Hecht; Edna Wilcox will be present and will be tendered a reception at the close of the meeting. By special request Mr. Mills will repeat the address made at the residence of E. L. Dolley last week. A small fee will be charged for the benefit of the society. The music will be in charge of Mrs. George A. Ruddy.

#### Aged Mason Dies.

R. P. Willett died yesterday at the home of his daughter, Mrs. R. A. Dunbar, No. 1027 East Fifty-sixth street, where he has been an invalid for some time, suffering from paralysis. He was a native of Alabama, but spent the greater part of his life near Fort Scott, Kan. He was a member of the Masons and that order will conduct the services at the grave at Rosehill cemetery on Sunday morning. The first service will be held at Breese Brothers chapel at 10 o'clock. He leaves three daughters in this city—Mrs. Lena Barry, wife of Rev. Levi D. Barry; Mrs. A. J. Blach and Mrs. Dunkerton.

#### Remarkable Double Funeral.

Funeral services were held at the First Methodist Episcopal church yesterday afternoon over the remains of R. B. Russell and J. J. Durrell, two old-time residents of this city who died the same day. Dr. McIntyre in his eulogy referred to the incident as the most remarkable coming under his personal observation. The two aged men had been life-long friends and married two sisters, the two families coming together from Maine in early days. Funeral services were held for the two at the same time at the First Methodist Episcopal church in the case of Russell. Interment was in the same plot at Evergreen cemetery.

#### Choices Cut Flowers.

A large variety of cut flowers can be secured from J. W. Wolfarth, Florist, 221 West Second street.
